

### Paving Day Crew Arrival

- Ensure you or a trusted person or owner is at the job location to receive the work crew.
- Time of arrival may vary; however, you will be notified the day before of the approximate time. If the weather is unpredictable then a call early in the morning on paving day to notify you of the cancellation (6:30-7am).
- If you have a garage door it must be left open or code provided.
- The crew will require access to water (i.e. water hose) in order to use the compaction equipment.
- Please keep children & pets indoors if possible and away from machinery.
- Do not move vehicles until the crew arrives with heavy equipment.
- Upon completion Alvi Paving will barricade the entrance way to make safe and secure.

### Unforeseen Site Conditions

- The time for job completion is estimated as accurately as possible but is not guaranteed in any way and is subject to extension, at the sole discretion of Alvi Paving, to cover delays caused by inclement weather, machine breakdown or any other event beyond control.
- Any unforeseen obstructions encountered during excavation (such as cement foundations, concrete slabs, buried tree stumps, large rocks, boulders etc.) may require additional charges to cover the extra expenses and shall be the responsibility of the owner.
- Excavation of asphalt is for a maximum of 2 layers (up to 3"). More than 2 layers will require additional charges to cover the extra expenses and shall be the responsibility of the owner.
- Soil and/or sod are not included in the proposal, an onsite estimate is required.
- Unless otherwise specified excavation means to remove existing asphalt only. Alvi Paving will not be held responsible for defects caused by existing base related problems.

### Conditions of Sale

- Title to all goods shall remain property of Alvi Paving until the goods are paid in full.
- Alvi Paving is hereby authorized to enter upon premises for all matters relating to the sale or installation at all times.
- In the event of Alvi Paving having to take legal proceedings to enforce the terms of this contract, the purchaser shall be liable to pay for all costs, charges, and expenses (between solicitor and client) which may be incurred by Alvi Paving.
- The purchaser is responsible to provide all necessary permits and advise Alvi Paving as to the location of any underground buried utilities, cables, telephone lines, fuel lines, water lines, etc. as well as to release Alvi Paving from any liability in event that any of the buried cables or utilities are damaged in the course of installation.
- A 1-year warranty is applicable only with the installation of a complete base by Alvi Paving (consisting of 8-12 inches of Granular A stone). In cases where Alvi Paving has NOT installed the base material, any problems or cracking will be evaluated and repaired by the discretion of Alvi Paving.
- Escalation of petroleum products. Any increase in the cost of materials directly related to price stability of petroleum-based products may require additional charges to cover increased cost.
- Alvi Paving cannot guarantee complete drainage of water if the slope is less than 2%. Minimum slope required for proper drainage is 4" per 10 feet.
- Alvi Paving cannot guarantee cracks on repaved surfaces and on culverts and/or cracks on the sides of any driveway due to grass/weeds uprooting through the asphalt.
- 2% per month carrying charges will apply to all overdue account. (Bill 142)

### Preserving a New Driveway

- Do not walk on a new driveway within 24 hours after it has been paved.
- Do not park any kind of vehicle on the driveway before 4 days have lapsed.
- Always avoid placing bicycle kickstands, ladders, chairs, or sharp objects on the driveway. These items could adhere to the pavement and result in holes or marks (even after the asphalt has set).
- In hot weather, avoid turning or grinding your automobile's tires on the asphalt while it is stationary. This will result in a scuff mark on the newly paved driveway, as heat tends to soften the asphalt.
- Do not apply any kind of sealant to the driveway for at least 90 days.
- Do not apply any water after final roll.

### Dissatisfaction Process

- Should repair work be required, all complaints should be submitted in writing, specifying the problem, to Alvi Paving, for more prompt service. Please include pictures if possible.
